Special Walk-In Vaccination Clinics

*****New Immunization Requirement for Ages 11-18 Years Old*****

The Bay County Health Department will hold a special walk-in immunization clinic on Saturday, July 17th and August 21st, from 8:00am to 1:00pm. Clinics will be held at the Bay County Health Department. These clinics are established to help parents meet the new immunization requirements for their children. **Children entering 6th grade for this upcoming school year, and any child from 11 to 18 years of age entering a new school district will need the following vaccinations:**

- One dose of Meningococcal vaccine
- One dose of Tetanus/Diphtheria/Acellular Pertussis (Tdap) vaccine, and
- Two doses of Varicella (Chickenpox)

Older children, who have not received these shots, will also need these vaccinations. These clinics will only service the specified target group listed above. There is an administration fee of \$14.25 per vaccine. However, no child eligible for Federally Funded Vaccine will be denied State required immunizations for inability to pay. Special funded vaccines are available for children who have insurance with high co pays and deductibles. Vaccines supplies are limited and will be distributed on a first come, first serve basis. For more information or regularly scheduled appointments, call (989)895-4009, select option 2.
